CALL FOR DEMOCRATIC CO. CONVENTION

Pursuant to the action of the Democrat Central Committee of Barton County, Kansas a delegate convention is hereby called to meet in the city of Herington, Kansas, Wednesday, Sept. 5, 1906, at 11 a. m. Said convention will be held for the purpose of nominating a county ticket for the various county offices of Barton County, Kansas. It is recommended that the caucus to select delegates to the county convention, be held on the evening of August 25, 1906 in the various townships and wards.
Each township and city ward will be entitled to the following representation, based on the vote of C. R. Aldrich in 1904:
Albion.....4 Logan.....5
Beaver.....4 Liberty.....5
Buffalo.....4 Pawnee Rock.....5
Claremont.....3 South Bend.....3
Cleveland.....3 Union.....4
Cheyenne.....3 Walnut.....5
Comanche.....3 Wheatland.....3
Comanche.....3 Washburn.....1
Fowler.....4 Fairview.....1
Fairview.....3 1st ward.....5
Grant.....5 2nd ward.....5
Great Bend.....5 3rd ward.....5
Homestead.....24 4th ward.....5
Independent.....11 Total.....199
Lakin.....20
The Democrat Party of Barton County hereby extend a cordial invitation to all voters, who desire cleaner politics, both state and national and those who seek the establishment of the principles laid down in Chicago and Kansas City platforms of the National Democratic convention, to join with us in our caucus and county convention. Ison Wright, Chairman.
C. F. Younkin Secretary.

MANY VICTIMS OF THE RAIL.

1,126 Killed and 17,170 Wounded in First Three Months of 1906.

IT'S A BLOOD RED TRAIL.

Washington, August 27.—Railroad accidents of all kinds resulted in 1,126 deaths and injuries to 17,170 persons in the first three months of 1906. Of the killed 114 were passengers. These figures were taken from the statistics in the quarterly accident bulletin compiled by the inter-state commerce commission.

The number of persons killed in train accidents in the three months was 274, and of injured 3,969. Accidents of other kinds, including those to employees while at work and to passengers in getting on or off the cars, bring the total casualties up to the number mentioned.

Collisions caused the largest number of deaths. Fifty-six passengers or persons being carried under contract were killed and 1,047 were injured as a result of collisions. Ninety-seven trainmen were killed and 971 injured in collisions and 30 yardmen and switchmen were killed and 248 injured in collisions. The total is 183 persons killed and 2,244 injured in collisions.

Deraillments caused fewer deaths in proportion to the number involved than collisions. Only five passengers were killed and 746 injured by deraillments. Casualties to employees by deraillments were 70 killed and 6 injured.

Miscellaneous train accidents caused 1 death and 15 injuries to passengers and 15 deaths and 400 injuries to employees.

Falling from cars while getting on or off resulted in death to 32 passengers and injury to 5,407, while 187 employees were killed and 3,089 were injured by similar accidents. Coupling and uncoupling cars resulted in fatal accidents to 84 employees and injury to 983, while accidents attendant upon switching caused death to 87 employees and injury to 4,116 employees.

City Delegates Elected.

The following delegates were elected Saturday evening to the Democratic county convention at Herington, Sept. 5:

Second Ward—James Moran, C. C. Phister, W. E. Stokes, Wall Dodge, Joe Troillet, J. D. Younkin, John Rozers and Cleve Gilmore. Each delegate authorized to appoint his own alternate.

Third Ward—delegates: C. R. Brooker, S. M. Wesley, J. C. Hill, L. C. Breeden, F. G. Strothman, W. B. Evans, James Hulme, M. Dailey, W. A. Rush, Ben McMullen. Alternates: C. J. Mommyer Henry Moore, Arthur Hayes, A. M. Sipes, John L. Beightle, R. Merten, Frank Green, A. K. Friedeman, W. F. Klein and Dick Ewalt.

For Register of Deeds.

"The friends of C. H. Boyle, of Herington, hereby announce him as a candidate for the office of Register of Deeds, subject to the will of the Democratic County Convention which meets at Herington, September 5, 1906.

At the Fire Company meeting Friday night the boys adopted a plan by which they will now pay sick and accident benefits, out of the funds in the company treasury, to all members of the company. Heretofore benefits could only be received in case of accident. Arrangements were also made to fit up the Firemen's quarters in the new city building, when completed.

A card from Nick Smith, who is at Goodhue, Minn., says "fishing is good" and he is well supplied with "bait." He goes to Port Washington this week.

TWO GREAT BEND BOYS INJURED.

George Thatcher, Jr. and Ray Chapman Scalded Near Lakin, Kansas.

A week ago last Saturday, August 18, two Great Bend boys, George Thatcher and Ray Chapman, concluded that a trip to Colorado was about the proper thing at this time of the year, so they stowed themselves away on the trucks of the tender on No. 5 that evening, the evening train to the Santa Fe, bound for LaJunta. They made the trip west all right and arrived at their destination all right in the same time that the Pullman passengers did. They visited in LaJunta a couple of days, and started home again. They secured the same berths they had occupied on the outward trip, but were discovered at Syracuse and ordered off the train. They got off and waited around the next train east bound came through. Then they proceeded to get into their old places. There is a brace of some sort under the tender of the big compound engines that is probably three feet wide and extends clear across the tender, just over the front trucks, and it was on there that the boys were riding. They climbed in at Syracuse, and before the train was out of the yards there they were struck with the steam and hot water. The engineer says that the boiler was foaming and they had to open the blow off in order to get her to working right. This blow off pipe is under the engine, and the steam and hot water burned them badly. As the steam struck them, young Chapman started to try to get off, but was persuaded to hold on, as it was certain death to try and get out with the train in motion, so he hung on by one leg and one arm, his hands so badly burned that he could not use them. When Midway, a small station twelve miles this side of Syracuse was reached, the train was stopped and the boys pulled from under the tender. Chapman being so badly used up as to be unable to help himself. They were put in the baggage car and hauled into Lakin, where they were taken from the train and left without any attention on the depot platform. The city authorities at Lakin refused to have anything to do with them because they were brought there by the railroad company. N. T. Hall, a real estate man of Lakin, seeing the condition they were in rented a room up town, provided them with cots and secured the services of a physician.

Up to this time the boys had refused to tell who they were or where they belonged, but when the doctor told them they would be laid up for at least a month or six weeks, they told who they were. A collection was taken up among the people in town there Saturday and they were sent home on No. 8 Saturday evening. Mr. Hall accompanied them home and did all that he could for them until they were turned over to their parents here.

Both the boys are pretty badly burned, and it will take some time yet to ascertain the real extent of their injuries.

If you want a prosperous town says an exchange, where people can come who are disposed to make homes, then do away with and bury from sight all jealousy and spite work, move for common prosperity and mutual benefit. wake up, rub your eyes, roll up your sleeves and go to work. Do not work with fear and trembling, but take for granted that blood will tell. Leave results to themselves, borrow no trouble, but all unite to make it the biggest kind of a town.

Sheriff J. S. Dalziel returned Friday evening from a two weeks trip to Minneapolis and other points in the northern states. He reports having had a fine time.

John Chase who has recently returned from a trip to Alaska, was in the city visiting with friends Friday.

PROF. FRANK EWING INJURED.

Hurt While Boarding a Moving Train at Hutchinson.

Prof. E. F. Ewing, of Garden City, whose mother lives in this city, was on his way home from the army maneuvers at Fort Riley, where he had been with a company the Kansas National Guard received quite severe injuries while attempting to board a moving train at Hutchinson Sunday evening.

Prof. Ewing, in company with several others of their party got off the train when they pulled into Hutchinson, presumably to get something to eat. When the train started to pull out they all made a run for it in the scramble Mr. Ewing fell and struck his head on the end of a tie, rendering him unconscious, and for a time it was feared that his skull was fractured. The unconscious man was placed on the train and brought here, his brother, Dr. Ewing, of Larned, and his wife and mother here, were at once notified by wire of the accident. His brother came from Larned as soon as possible and took charge of the case, removing him to the Hospital at this place where he is now. He regained consciousness some time last night to some extent, but is not altogether rational yet.

A Welcome Extended.

The Young Women's Christian Association of the Kansas State Agricultural College in this way wishes to welcome the girls of Barton county, who are coming to Manhattan this fall. The Association stands for practical christian service and wishes to help in every way possible. All trains will be met by college girls. The Association Home will be open night and day. Girls will be helped in finding rooms and boarding places. The first Friday night will be given the reception, where every one becomes acquainted. Later Bible and Mission Study Classes will be organized. Devotional meetings are held every Saturday noon. If there is any girl wishing work it may help her to write to the general secretary, who will be glad to answer all questions. Address, Jennie M. Thayer, General Secretary Y. W. C. A., Manhattan Kansas.

The Other Side.

The Herington Dispatch published the communication to the Daily Rystler concerning the Sutcliffe affair at Galatia, and then makes the following comment:

"We find on conversation with parties from Galatia that the above is only one side of the story. It seems that Mr. Sutcliffe does not stand very high with some of his neighbors around Galatia and that he was roughly used by some of them on the night in question but three ladies who were on the porch in front of Brown's store at the time say that they did not hear any shot fired. Mr. Sutcliffe recently sold his farm and will leave Galatia."

W. F. Honnen is making some extensive changes in his store room this week. He has already changed the cashier's desk, placing that high enough to obtain a good view of the entire store from that point, and is now moving all the grocery stock to the Broadway room, leaving the Main street room for drygoods and notions, of which he will carry a much larger stock than in the past. Mr. Honnen has built up a large trade and is adding to it all the time.

We like best to call SCOTT'S EMULSION

a food because it stands so emphatically for perfect nutrition. And yet in the matter of restoring appetite, of giving new strength to the tissues, especially to the nerves, its action is that of a medicine.

Send for free sample. SCOTT & BOWNE, Chemists, 409-415 Pearl Street, New York. 25c and 50c all druggists.

GROW MORE ALFALFA.

No Crop in Kansas is More Valuable to the Farmer.

If the farmer who is without alfalfa could but realize what he is missing in the way of a money making crop, he would spare no effort in an attempt to grow it. Almost every Kansas farm contains a number of acres capable of producing alfalfa. The area over which alfalfa has become a profitable crop is greatly increasing as people are coming to know its value. Twenty-five years hence the farm that does not produce some alfalfa will be an exception. It is doubtful if the introduction of a single other crop into Kansas has been so greatly valuable as alfalfa will prove to be. Great as is the value of crops to corn and wheat we venture the prediction that fifty years from now the value of the alfalfa production will be even greater.

Why will alfalfa be grown so extensively in the future? Solely because of its intrinsic worth. As all round good for stock it has no equal—every kind and condition of stock relish it. Cows will leave the best blue grass pasture to eat fresh, bright alfalfa hay, hogs will leave their corn and even poultry eat it greedily. The man who has good alfalfa for feed needs little grain. Given all the alfalfa hay she will eat the dairy cow wants but little grain to produce her maximum of milk; given good alfalfa pasture the growing pig needs but little grain to develop his bone and muscle; given alfalfa hay and the beef steer will make gains with a minimum of grain that, without the hay, no amount of grain would produce—it is such facts as these that make alfalfa so valuable.—Farmers Advocate.

STICKS IN THE STOMACH.

Feeling That Often Comes to People With Weak Digestion.

A poor sufferer from indigestion once said that his stomach felt as though it was filled with sticks and as though some of them were on fire and burning him up inside.

When the stomach and the organs of digestion and nutrition are weakened and do not act properly, the symptoms of ill health that follow are many and varied. There is often a feeling of heaviness in the stomach, there is distress and nervousness, dizziness, nausea, nervous and sick headaches, inability to sleep well, pains in the side and limbs, specks before the eyes and a general peevish, irritable condition.

All these troubles are the direct result of indigestion. Cure this by strengthening the stomach and digestive system with Mi-o-na stomach tablets and your symptoms of ill health will vanish like dew before the morning sun; life will be joyous, and digestion will be so natural that you will forget you have a stomach.

Mi-o-na stomach tablets cost but 50 cents a box and are sold by Hooper Drug Co. under an absolute guarantee that they will be successful in every case where used according to directions or money will be refunded.

Miss Irene Hooper entertained about fifty young people at her home on South Williams Avenue Friday evening in honor of Misses: Alice Rudolph, of Kansas City; Georgia Collins, of Newton, Pearl Miller, of Eureka, Thadine Dorsey, and Attitia Healey, of Wichita, Ida Soldani, of Ponca City, Oklahoma, and General McMeel, of Meade, Kansas, all schoolmates of Miss Hooper at Mt. Carmel Academy, at Wichita last year. A most delightful evening was spent with games and music. The rooms were decorated with the young ladies class colors, yellow and purple, and presented a very handsome appearance. Delightful refreshments were served during the evening.

For Sale.
1, 20-horse Avery engine with extra heavy gear, oil and independent pumps, and all necessary attachments.
1, 36x60 Avery Separator with extra wide wheels, 14 feet extension feeder and Maplebay wind stacker.
The reason for sale is I have not time to thresh and prepare land for wheat at the same season of the year.
Compensation \$15.00 with reasonable terms.
